

# Graduate Outcomes Data

## Northern State University School of Business

In order to report summary outcomes data for graduates of the NSU School of Business, surveys are administered to recent graduates. Individuals choosing to respond may indicate the status of their post-graduation outcome. Choices are: (1) employed full-time; (2) employed part-time; (3) participating in a volunteer or service program; (4) serving in the U.S. military; (5) enrolled in a program of continuing education; (6) currently seeking employment; (7) planning to continue education but not yet enrolled; and (8) not seeking employment or continuing education at this time. Of these, only options (6) and (7) are deemed negative outcomes. With that said, the survey responses collected from School of Business graduates from 2014-15, 2015-16, and 2016-17 academic years indicate a very high rate of positive outcomes.

More detailed results are displayed below.
